### PREMIUMA.

Advocate for our paper, after this date, we make the following liberal offer: To ach subscriber who desires it, and will say so at the time of subscribing and cratic newspaper just started at Stanford, may so at the time of subscribing and under the proprietorship of Messrs. Hilpaying the money (\$2), we will give ton and Campbell of that place. It is 15 extra fine plants of the Kirtland well gotten up, neatly printed, is filled with local news, and is placed at two dollars a year. We trust that the people of Lincoln may appreciate the difficulties at-These plants alone are fully worth the lending the tarting of a new paper, and from the failures that have preceded this price of our paper; but we have made last attempt to furnish them a live paper, such arrangements with nurserymen as will give the publishers a hearty and lib-To justify us in making this offer, eral support. The cause sought to be up-Our object is to circulate our Journal zens of Stanford ought to see to it themall over interior Kentucky; and no of selves that this endeavor shall be entirely forts shall be spared to accomplish it, successful,--- Richmond. Register. The plants can be had by ordering them from our office.

### LABOR MEETING.

In New York city the other day, a few terous men got it iato their heads to did not reach us until yesterday. It is all a meeting of the "unemployed" thous-published by Mesrs. Hiltor and Camp-ing calicoes, blenched and brown cottons, ands of that strange city, including men, bell, proprietors, who will be aided in their celitorial duties by 11. T. Harris. day, March, 25th 1872. excitement as possible and thereby make The Journal has all the ont side as well ns much of a crowd as they could, these as inside appearance of a first class interiaffected people had several covered or country weekly, being filled, in each agons driven through the principal distinctly marked department, mostly of Miller's for the \* creets, upon which were emblazoned original articles of sensible comment on es suggestive of the object of their the news and current topics of the day, sping. On the day set apart for the together with a full page of local matter. ng of this "grand convocation," In their opening article the proprietors n hand-of music was present, stand fixed say: "Our highest aim is to make this up, and the usual number of "orators" journal an epitome of local news." Diseady to do the spouting. A preamble carding extreme partisanship, they nevand resolutions were read for the edifica- ortholess "hoist the Democratic flag, be tion of the multitude, which, in them- lieving that the principals of the Demoselves, were modest enough-barring a cratic party are wise and just." We tender pirit of complaint at that which seems to them a cordial welcome to our exchange o inevitable Fate. Here were gathered list, and our best wishes for the success together a motley erew—some, perhaps, of an enterprise so nuspiciously begun.—
of those who had seen 'better days,"

I'coman. thers who expect to eke out a subsistence by hook and by crook (principally the former) while a few, perhaps, were real and added to our exchange list the following candidates for public favor: hemselves from the cold reception of this The Interior Journal, published weekly

fash world.

This meeting of the "unemployel" affiliton and Cambpell. The Journal is a Craig & McAlister's. fords an ample text for sermonizing, far better than many of our divines find in the political bosh of the day, or that equally fruitful source—sujcides and emissions. A good newspaper has long been a want of Stanford, and we have the multitude had been a want of Stanford, and we craige the supplications of the supplicatio bezzlements. After the multitude had hope that the Interior Journal will be assembled, they were regaled by several encouraged and patronized by the citizens "orations" (?) of the decidedly vulgar type. Oaths and imprecations interlarded mercial. 'heir discourses; calling down vengeance upon the 'rich and the aristocratie." In the minds of such a throng, riches are nal is on our table. It is a new Demoinvariably associated with aristocracy. cratic paper published at Stanford, Ky., and All those indebted as seem to think and that by fauton and Campbell, at \$2 a year in on him and settle up.

that by fritton and Campbell, at 82 a year in advance. We welcome these gentlemen alor, is a "non-producer," and hence an to the editorial ranks, and wish them aristocrat. They seem to have no concears gone hy, these same men who now which they live, and their own interest ive at their ease, in a comfortable brown at the same time. There is much to be stone house, were, many of them, men done in Kentucky to bring the noble old who begun life as poor and obscure as State to the front in work of material tadustry and economy, accumulated and accomplished as by advocacy of a liberal, soved their earnings, instead of squander-enlightened policy on the part of ing and wasting them in beer gardens the press. - Kentucky People. and liquor saloons. Many of those who THE Interior Journal is the name assembled in that meeting, might have a large and handsomely-printed weekly been men of influence to-day, and been newspaper just started at Stanford, living in case and comfort, had they husbanded their earnings and lived lives of The services of H. T. Harris, Esq., a sobriety and honesty. The remedy fur the evil complained of hy these mer, does not lie altogether in the direction they point out. Far from it. We venture to say that there is not, in the great city of New York, many persons willy taking the venture to say that there is not, in the great city of New York, many persons willy taking the venture to say that there is not, in the great city of New York, many persons willy taking the venture to say that there is not, in the great city of New York, many persons will be taking the venture of the partnership heretofore existing between W. P. Owsley and Jao. M. Bochesterter, under the firm name of Owsley & Rochesterter, in this day dissolved by numual consent.

All persons owing not accounts or notes are required to call and settle them immediately. great city of New York, many persons sibly taking the position that matter of Stanford, Ky., March 6th, 1872. who would long remain out of employ- that kind lends to county papers their

On the whole, this meeting is not without its lesson. It shows us one view of the world which we never had clearly defined before. In a republic like ours,

"YOU TICKLE ME AND I WIIL TICKLE

YOU."

We have received the first number of the world which we never had clearly defined before. In a republic like ours,

"YOU TICKLE ME AND I WIIL TICKLE

1 take pleasure in recommendate of in the public generally, and hope they uill continue their patronage to him as to the firm of Dweley & Rochester.

W. P. OWSLEY. the world which we never had clearly defined before. In a republic like ours, just started at Stanford, Lincoln County, in this State. Under the head of "a good naa and child in the county to call and see him before the first of April." lessens of their lives. But they do not learn that lesson correctly. Their ideas of "equality" are that all men should have un equal share of this world's goods, whether they labor for lt or not. If they could have their ways a state of Danville, it hears the impress of skill-ful management. Success to both." could have their way, a system of agra-tianism would be set on foot, and the ed by Hilton and Campbell, 11. T. tonements, gad hereditaments of Harris associate editor. POR SEVENTEEN YEARS THE PHE

PEERLESS

Of Franklin, Kentucky. To Bee-keepers everywhere: The following points of excellence comprise a few of the away, that may be truthfully claimed for my hive:

1. It is simple in construction, neat in appearance and is the most easily understood and managed movable could frame Hive ever la-

2. The only material required in its construction is 26 feet of lumber, the nails necessary to fasten it together and a few small scraps of wire cioth to cover ventilators. Not a seriew, seriew sye, block and eye, hinge, pivot, place of tin, tin tule, glass, or other expensive unsterial is used in its construction.

3. When properly used, it is the coolest hive for anumer und as warm as the warment for winter use, affording ample projection for the aucressful wintering of colonies on the analmer stand.

auccoseful wintering of colonies on the suntmer stand.

4. Ity its use the necessity for "honey boards"
or "honey loars" is entirely dispensed with,
while the chambers may be contracted to suit
the condition of any sized colony of from one
single frame to ten, enabling the keeper to confine the animal heat to the space only occupied
by the colony.

5. Less time and labor is required in handling, and the broad is less exposed than in
using other first-class hives.

6. While it does not claim to be positively
"moth proof" under all circumstances, yet it is

We have on hand and are constantly receiving the latest styles of
